

# REELXTC GUIDE SERVICE

## LAKE STOCKTON MISSOURI

Here is the chance to fish with the Masters Walleye Circuit (MWC) Missouri State Champion, and MWC World Walleye Championship Qualifier, on beautiful Lake Stockton. We offer full and half-day walleye guide services on Lake Stockton situated in the Ozarks of Southwest Missouri. Fish from a fully rigged a LUND 2025 PRO-V powered by YAMAHA motors equipped with two Garmin GPSMAP 1042xsv chartplotters, LiveScope System, GCV 20 Ultra High-Definition Sonar Scanning system, and a FORCE Trolling Motor. All rods, tackle, and bait are provided.

Please bring your fishing licenses, lunch, and raingear if needed.

We have XL and 2X life preservers onboard. Please bring your own if other size is needed.

#### RATES:

Full Day - 8 hours - \$350

1/2 Day - 4 hours - \$275

Rates shown are for up to two people. Extra adults (16 or over) are \$50.

Deposit of \$100 required to secure date.

# 18LB LEADCORE LINE DIVE CURVE AT 1.8-2.2 MPH

# of Colors	1	2	3	4	5	6	7	8	9	10
Feet out	30	60	90	120	150	180	210	240	270	300
Dive Depth	5	10	15	20	25	30	35	40	45	50

## Double Uni-knot to connect Leadcore line to leaders:

## Pro Weight & Snap Weight Systems 50/50 Method

10lb mono: Depths shown are lure depths obtained by letting out a 50 ft leader, attaching the Weight, then letting out 50 ft of additional line.

Weight trolling is highly speed dependent! The depth bars shown represent the range of multiple measurements while maintaining the average speed indicated.

**How To Use:**  
Determine the desired target depth. Approximate trolling speed. Follow the reference line for that depth to find the best bar graph intersect for that speed. Choose the weight that corresponds to that depth range.

All Snap weight Dive Chart information is provided by [www.precisiontrollingdata.com](http://www.precisiontrollingdata.com)
